

HONEY FINISHED BOURBON WHISKEY

**REAL BOURBON.
REAL HONEY.
REAL GOOD.**

Introducing Green River Honey, which starts with only four-year-old Kentucky straight bourbon. Then we add 100% real, locally-sourced honey directly into the barrel—letting time and oak do the rest.

Instead of honey-flavored, we go **HONEY-FINISHED.**

Instead of substitutes, we use **REAL BOURBON & REAL HONEY**

Instead of shortcuts, we give it time & bottle at **92 PROOF.**

This is what **REAL** tastes like.

**BOURBON
WITHOUT THE
BULLSHIT**

TASTING NOTES

Aromas of honey, caramel, oak and vanilla lead to full bodied flavor that coats the palate. An enjoyable finish is highlighted by light cinnamon spice.

GREEN RIVER HONEY

THIS IS WHAT REAL TASTES LIKE

A lot of bourbon drinkers won't touch honey-flavored whiskey. Honestly? We get it. When people hear "honey-flavored whiskey", they think overly sweet, low proof, and barely any bourbon character (if there's any bourbon in the mix at all). So we did things differently.

OTHER HONEY-FLAVORED PRODUCTS

- Neutral grain spirit / immature whiskey
- Flavored with synthetic or "natural flavor"
- Made in a lab
- 65-75 proof
